

Re: Insurance for Community & Voluntary Groups.

February 24th 2006.

Dear Community Group,

Mayo Community Forum conducted a survey of insurance costs in 2005 with a view to approaching insurance companies to form a group scheme for the Community and Voluntary sector. This was taken up by the National Forum. In light of this BHP Insurance Ltd, in association with Royal & Sun Alliance have formed a strategic partnership to minimize the costs to members who are registered with the Community Forum.

The insurance package has been tailored to provide members with a reliable facility to arrange standard cover in both Liability Insurance and Property Insurance. The process will be very simple – all you will have to do is ring a freephone number and quote your code number – which we will give to you . The new group insurance will give cover at a fraction of the present premium. The new group scheme will be launched in March .

Mayo Community Forum will allocate a number to all our affiliated members. The numbering code will be similar to the one used by the motor taxation system i.e. 06 MO 01 etc. The number will be allocated on receipt and acceptance of a written Registration Form and will be sent in writing to the community groups.

We are therefore asking all community and voluntary groups to re-register with Mayo Community Forum in order to avail of the group insurance scheme.

I apologise to those groups who may have registered recently but it is important that you do so again to ensure you group is included.

I am enclosing a Registration Form for your attention. Please complete and return to me at the address below and you will be supplied with a code thereafter. You can also visit the County Development Board website www.mayocdb.ie and print off a form.

Kindest regards,

Mary Wrafter, Chairperson.
